Describe existing practice in the area of a proposed document to aid in judging timeliness and appropriateness of the project. Address the expected stability of the proposed document with respect to both current technology and potential technological advances.

New internal connector is necessary for SAS 4.1 designs. Clarifications or corrections may be identified.

3.2 Identify Stakeholders

Identify the stakeholders (e.g., telecom, consumer, etc.) likely to be directly impacted by this standard or technical report.

Consumers and developers of SAS 4.1 products.

3.3 Estimated Useful Life

Estimate the useful life of the standard or technical report.

10 years

4. Legal Considerations

4.1 Patents

Calls will be made to identify assertions of patent rights in accordance with the relevant INCITS, ANSI and ISO/IEC policies and procedures. Is the proposer aware of any patent assertions that may be made? If so, describe.
